AMATEUR RADIO*

New contest Changes for 2022

- Low Power limit for all HF Events lowered from 150 Watts to 100 watts PEP. VHF+ contest power categories remain unchanged.
- ARRL International DX contest, Single Operator, Single Band categories expanded to include unassisted and assisted categories, as well as QRP, Low Power, and High Power categories.
- Clarified Off Time Rules for Sweepstakes and RTTY Roundup.
- Definition of Rover category in VHF Contests- allow for “one-grid” Rovers.

AMATEUR RADIO

Contest Changes “In the Works”

- ARRL Digital Contest
- RTTY Roundup becoming a RTTY-Only Event (upon creation of the Digital Contest)
- Evaluation of Field Day rules waivers for future events

ARRL *The national association for
AMATEUR RADIO*

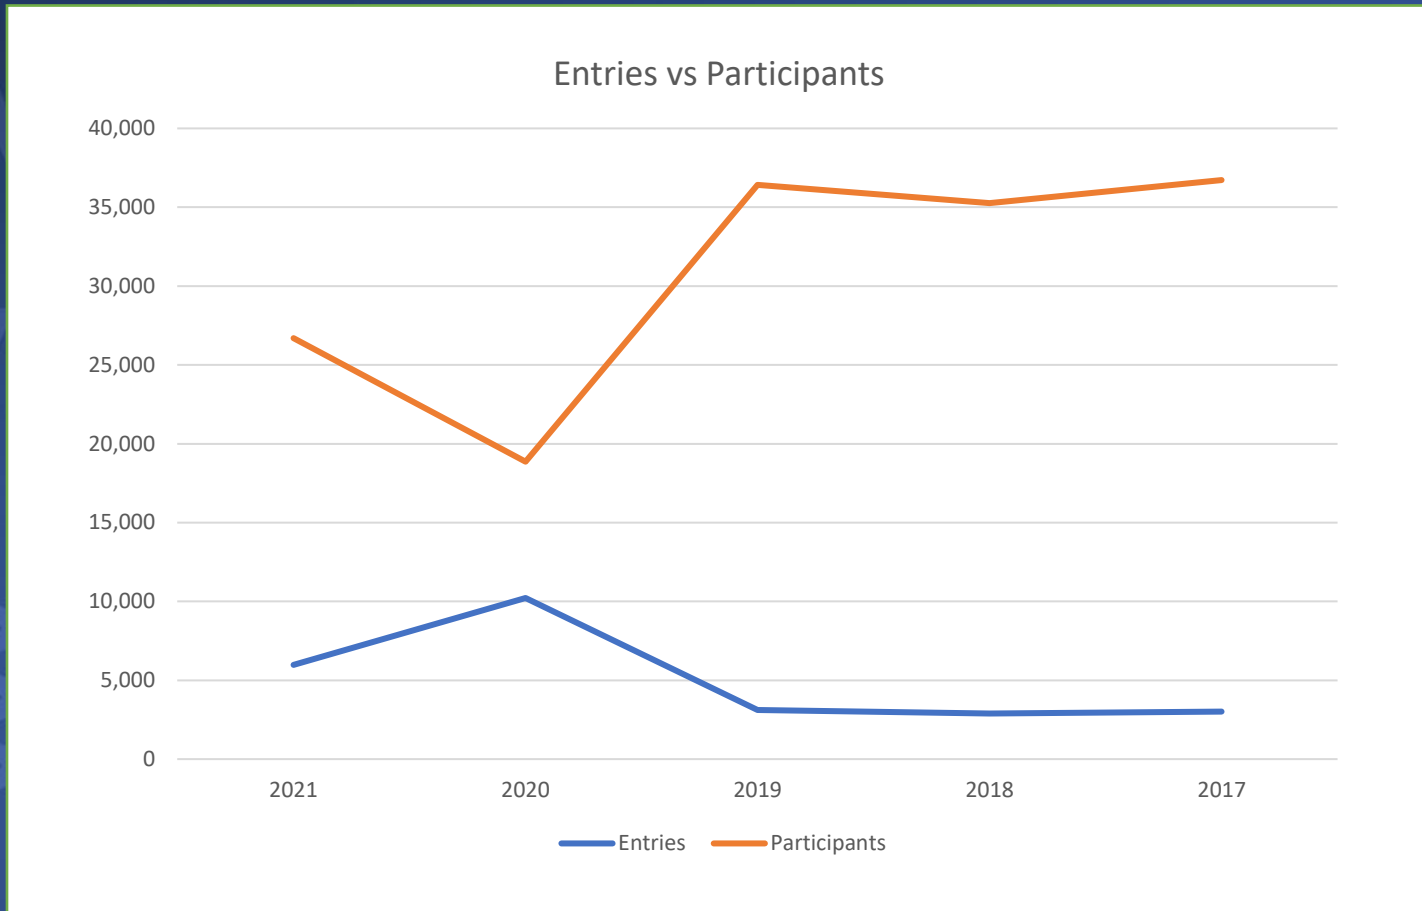

Field Day Participation In the Time of Covid

- The number of entries increased in 2020, but the number of participants and QSO count increased.
- Majority of participants entered in Class D
- Many participants chose to stay home and operate, taking advantage of rules waivers.
- 2021's numbers began to return to pre-pandemic levels.
